

1

Determining The Need

Understanding your company structure and assessing how teams collaborate is the key to delivering an effective layout and space plan.

2

Feasibility

Identifying your concerns is a vital part of the planning leading into step three. Collaboration will ensure the project scope and concept lines up with the company budget.

3

Determine Budget

With your company brief, we will formulate and establish the most productive and effective working environment to maximise your investment. Future proofing at this time is also considered very important.

4

Design Presentation

At this stage, we will help to condense space planning opportunities and work on detailed plans that may be required throughout the building consents processes. This also will include colour finishes and preferred surface outcomes.

5

Sign off Design and Proposal

Finalising and working through your final plans including any additional finishing touches required.

6

Fitout Commencement

Planning for the project's execution is well underway. Timelines and budget are locked in to ensure all plans and final results are completed to your expectations.

7

Completion

Your design and fit-out is now nearing a successful completion and all factors have been carefully considered throughout the project, bringing together a highly effective space.

Our DESIGN SOLUTIONS meet the demands of the total working environment. Our designers are trained to bring your personal concepts and ideas to life, integrating them into a space-efficient area.

FINAL QUALITY CHECKS

"We are pleased with our decision to use DB Interiors for our building fit-out and believe it has produced significant cost savings."
Management comment, Thomson Wilson Law

"We have found the quality of the furniture to be of a high standard and throughout the purchasing and installation process, we were kept well informed of progress."
Management comment, Department of Corrections

"I can say without hesitation that we will approach DB INTERIORS for any future requirements. Their prices are extremely competitive and customer service was always above reproach."
Management comment, Northland Health
